The Cinesystem Pro is a soundbar that breaks the mould. It's a 4.1 complete system with skin-tingling surround sound. Both the subwoofer and rear speaker can be controlled wirelessly.

- Quality soundbar with 4.1 surround sound and wireless rear speakers perfect for TV and music playback
- The soundbar contains eight gigantic top-performing drivers and six amplifiers for the loudest and cleanest sound - the best for voice comprehension
- Two wirelessly controllable Effekt loud speakers with a two-way system for wide sound distribution.
- The wireless loudspeaker Effekt can either be mounted on the wall or set up on stand, you just need a power source.
- The wireless XL subwoofer with 250 mm woofer, can be used either as front fire or downfire
- Widespread streaming possibilities with Bluetooth 4.0 with apt-X[®], Spotify Connect and Google Chromecast built-in offering 100 additional music services
- 1 HDMI output with CEC allowing control with a TV remote, ARC for single cable connection, 4 HDMI-inputs with 4K support.
- Integrated wall mount, line-in, headphone jack, optical digital input, sound adjustments, as well as night mode
